

Sustainable Operations Partnership Agreement

Southern Utah Sustainable Operations Partnership (SOP) encourages the voluntary use of sustainable practices to reduce the risk of climate change. Partners benefit from the use of sustainable practices, while supporting renewable energy, water conservation, alternative fuels, waste reduction & recycling, green purchasing and sustainable leadership in our communities.

By joining **SOP** Partners commit to:

- Use sustainable practices that meet or exceed Partnership standards.
- Report sustainable practices annually.

In return, **SOP** commits to:

- Provide public recognition.
- Provide outreach, educational, and communication assistance as requested by Partner.
- Provide a brief description of the Partner's sustainable practices on the **SOP** website.
